Zambia ZESCO Tariffs 2026

ZESCO prepaid electricity tariff bands for Zambia - the price per unit at each monthly consumption level. Work out the units for any amount at **zamcalc.com/calculators/zesco-units**

Residential tariff bands

TARIFF BAND	UNIT RANGE	PRICE PER UNIT
R1	Up to 100 units	K0.42
R2	100 - 200 units	K1.19
R3	200 - 400 units	K2.89
R4	Over 400 units	K4.12

ZESCO tariff bands are cumulative per calendar month, not per purchase - they reset at the start of each month. Each band's rate applies only to the units within that band, so units already bought this month push a later top-up into a higher (more expensive) band.

See how many units your money buys - or your bill for any usage - at **zamcalc.com/calculators/zesco-units**.
